

## BALLET SCHOOL TUITION & PAYMENT

Tuition payments are broken down into four 9-week quarters. Payments are due in September, November, February and April. (See calendar above.) Below are the tuition rates for each 9-week quarter.

Students in levels B2 and up who do not enroll in the minimum number of classes per week are considered recreational dancers and pay a per class rate (PCR). Dancers taking the minimum number of classes per week are typically working at, or toward, the goal of dancing in pointe shoes and receive a discounted program rate (DPR) in order to increase the affordability of intensive training.
